On average, in 2018, the cost of holding people in federal custody was \$102.60 per day per adult, or \$37,449 a year.

The average cost for psychiatric treatment in a community hospital ranges from \$3,616 to \$8,509, depending on the type of illness being treated. A simple calculation reveals that for an adult, the cost of 35 to 83 days in prison would provide the financing of a hospitalization that would have a better chance of bringing about recovery.

VETERANS TRANSITIONAL HOUSING

Celebrating over 35 years of Mental Health & Rehabilitation in Ventura County

To improve the quality of life for adults experiencing serious mental illness, addiction, lack of housing and inadequate physical health care.

We do this through providing health navigation services, rehabilitation, wellness & recovery programs, as well as temporary, transitional and permanent supported housing in Ventura County.

VETERANS TRANSITIONAL HOUSING

TURNING POINT FOUNDATION HONORS AND SERVES OUR VETERANS WHO ARE TRANSITIONING OUT OF HOMELESSNESS AND INTO PERMANENT HOUSING

Turning Point's Vet House provides transitional housing for up to 15 Veterans, with the goal of Veterans obtaining permanent housing placement within six months. If a Veteran has not found housing within that time an extension may be approved at the discretion of the V.A. and TPF Vince Street Veteran's transitional housing staff. Displaced veterans complete a thorough intake assessment to identify their areas of strength, vulnerabilities and needs. At the Vet house, veterans are given referrals to outside agencies & resources to focus on their needs, assistance with employment, completing housing applications, as well as direct case management services (that assist with building self-esteem and finding permanent housing) to better thrive in the community. Often a Veteran will experience issues with alcohol or drug addiction. These Veterans are offered referral services to assist them in making better choices and getting their life back on track.
